Specifications are subject to change without notice.

1. Print speeds are based on High-Speed print engine speed, measured from the start of printhead movement over the page to drop ink, excluding the first print. Stop time is based on printhead moving to Park position. Total times depend upon front-end software, file, size, printer resolution, networking, number of pages per print job, and frequency of jobs.

2. Smudge, water and fade resistant prints on Epson Genuine Photo Media only.

3. Designed for Epson Inks Only: Other brands of ink supplies are not compatible and, if described as compatible, may not function properly or continuously. Using Epson genuine ink is important for reliable performance and high image quality. Firmware Updates: Epson periodically provides firmware updates to address issues of security, performance, minor bug fixes and ensure your printer functions as designed. Your printer was designed to work only with genuine Epson inks, therefore some updates may affect the functionality of third party ink.

4. Subject to terms and conditions found in the Manuals and Warranty section at www.epson.com/support/D700
