bizhub® 958/808

MONOCHROME HIGH-VOLUME MULTIFUNCTION PRINTER

UNRIVALED OUTPUT PERFORMANCE FOR

UNMATCHED USER PRODUCTIVITY.

The printing speed you need with the security and operability your work style requires.

Today's business environment moves at lightning speed — everything needs to be faster, smarter and better. Konica Minolta's bizhub 958/808 is designed to meet your business' critical needs — offering high-output that guarantees you better productivity. You'll print faster. More reliably. And handle projects more efficiently than ever before — whether printing general documents or paper booklets. The bizhub 958 series goes beyond performance by offering a wide range of solutions connectivity, concrete security features, smooth machine operability, minimized footprint, access to Konica Minolta MarketPlace and much more. With flexible options, the bizhub 958 series is the perfect fit in your work environment — ready to take your business further.

FEATURES THAT YOU'VE BEEN LOOKING FOR IN AN MFP.

IMPROVED SPEED, ACCURACY AND IMAGE QUALITY, PRINT AFTER PRINT
The bizhub 958/808 performs exceptionally in the busiest work environments. It features both stable high output and improved DADF scanning — with a 6,650-sheet paper loading capacity and 240 opm dual scan speed. This high copy and scan functionality improves users' work efficiency. Plus, we've not only improved print speed, but also various image enhancement features to ensure accuracy and stunning output.

YOUR ONE-STOP SHOP
As the award-winning recipient of BLI's 2017 Outstanding MFP App Ecosystem, Konica Minolta MarketPlace is a great source for cutting-edge technology — and with new apps being developed all the time, your bizhub MFP will become even more powerful as you add new capabilities in all the right categories. Scanning, printing, social networking, security, document management and Cloud-based apps are all easy to access and designed to help increase productivity.

SECURITY AND AUTHORIZATION
Konica Minolta's bizhub SECURE provides the industry's most comprehensive suite of privacy and security solutions, with secure printing, scanning, copying and faxing functions. Our IEEE 802.1X SSL and IPsec protocol authentication methods allow easy integration into protected networks plus secure network communication. Lock-down protection for your MFP means safeguarding information and defending your organization from security breaches.

COLLABORATION THROUGH ENHANCED SOLUTIONS
The bizhub 958/808 also provides strong connectivity with mobile devices, Cloud service and third party business applications. With a standard web browser and IWS functions, users' business requirements will be fully covered with this powerful MFP.

AT A GLANCE
bizhub 958 / 808

- Speeds up to 95 ppm
- 9" customizable color panel with mobile connectivity area (NFC)
- New DADF with enhanced reading sensor reduces feeding errors and paper jams
- Dual scanning up to 240 opm
- High-capacity 300-sheet document feeder
- Console design
- Standard web browser for easy Cloud connectivity
- i-Option capabilities for demanding applications
- Downloadable apps enhance functionality through Konica Minolta's award-winning MarketPlace

A NEW STANDARD OF PRODUCTIVITY TO
CHANGE THE WAY YOU WORK.

Success today demands a formula of cutting-edge technology and cost-effective investment. The 958 series exceeds that challenge with an affordable yet powerful system.

NEWLY DEVELOPED LARGE CAPACITY HIGH-SPEED DADF
In addition to increased speed and input capacity, the new dual scan document feeder features improved reading magnification and skew correction for precise scanning. There is also an optional ultrasonic sensor that detects multi-feeding to maximize productivity.

AUTOMATIC PAPER SIZE MEASUREMENT FOR NON-STANDARD PAPERS
The bizhub 958/808 takes the guesswork out of non-standard paper sizes. Simply insert paper to the DADF or glass platen, then press the start button. The MFP automatically measures the size of paper and registers the measurement into the memory.

OPTIONAL MULTI-FEED DETECTION KIT
With the Multi-feed Detection Kit (optional), no original will be skipped during the scan workflow. To prevent document multi-feed, an ultrasonic sensor is added to the inside of the ADF. Each sheet passing the ADF will be verified and if more than one sheet is detected, the unit will stop. A preview of the last scanned page before multi-feed will be displayed on the panel for user guidance.

IMPROVED SCANNING DOCUMENTS TO A COMPACT PDF
We've made analyzing text and image areas more accurate, resulting in smaller file size with superb image quality.

CREATE A VARIETY OF PRINTED MATERIALS IN-HOUSE
The bizhub 958 series supports a wide range of high-level finishers for various types of outputs. Multiple finishing options. One single unit. The newly developed FS-537/537SD finisher handles a wide range of tasks such as z-folding, tri-folding, booklet making (SD), hole-punching, 100-sheet stapling and more. Now with a reduced footprint and internal z-folding unit, making installation faster and easier. The result is a finisher that's become the industry standard for compactness.

POWERFUL FINISHING OPTIONS FOR ALL KINDS OF MEDIA.

The bizhub series has a robust variety of finishing capabilities to meet your needs.

- Corner stapling
- Two-point stapling
- Two-hole punching
- Three-hole punching
- Duplex
- Combined mixplex/mixmedia
- Half-fold
- Sheet insertion, report
- Tri-fold
- Booklet
- Offset sorting
- Z-fold
- Banner printing

TECHNOLOGY THAT HELPS YOUR TEAM WORK SMARTER.

MOBILE PRINTING

The bizhub 958/808 supports various mobile print technologies. It's flexible to suit your users' environment, such as Classic Google Print, which enables output outside the office; or Mopria, which is compatible with various manufacturers' printers.

The operation panel also includes a mobile touch area compatible with devices that support NFC (Near Field Communication). With Konica Minolta Mobile Print you can:

- Pair immediately with the MFP
- Log into the unit if user authentication is set
- Print/scan

FLEXIBLE WIRELESS CONNECTIVITY

A variety of wireless functions are available, including direct connection to wireless devices (AP Mode), WiFi Direct and AirPrint. This makes it easy to match the requirements of the BYOD environment.

SUPPORTS HDD MIRRORING

Mirroring is the real-time synchronization of main HDD and backup optional HDD. Risk of losing data is reduced significantly even if the main HDD fails, as it automatically switches to the optional HDD.

WIDGETS

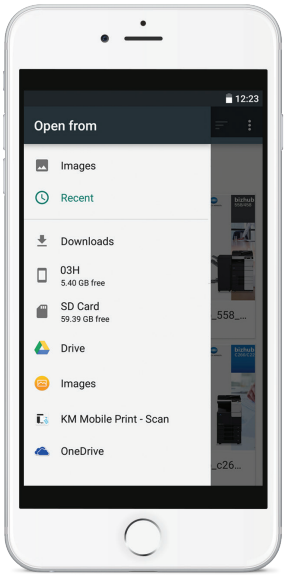
Users can paste text boxes, icons or GIF animation clips as widgets on the control panel. For example, advertisements and operating precautions can now be effectively displayed.

EASY SET ECO FUNCTIONS ON THE MAIN MENU

Toner/paper saving, power saving or any Eco function shortcuts can be registered on the main menu. The cumulative power consumption is displayed as a list or graph on a monthly or hourly basis.

CONTROL POWER CONSUMPTION WITH ECO SETTING

One touch settings are available to reduce the brightness of the touch panel or to turn the animation display off and thereby control power consumption.



At 9 inches, our enhanced multi-touch panel puts features and capabilities at your fingertips. Transforming the panel into a tool you can customize specifically for your business needs.

CUSTOMIZE THE MAIN MENU

Up to 23 shortcut keys can be set in the main menu for quick and easy access to frequently used functions.

SLIDE MENU

The slide menu containing pre-registered frequently used features can be accessed from the right side of various screens.

KONICA MINOLTA MARKETPLACE

The Konica Minolta MarketPlace enhances your MFP's capabilities with a number of workflow and communication apps designed for your business needs. Similar to those used on mobile devices, the apps can be accessed right from your MFP's touchscreen control panel. Find apps to support scanning and printing; or apps that can save time, speed work and make administrative tasks easier. Visit konicaminoltamarketplace.com for more information.

WEB BROWSER AND IWS FUNCTIONS

Allows users to access the web directly from the bizhub control panel. You can access HTTP pages, preview PDF files and search and view manuals written in HTML. This function is standard.

[1] Maximum monthly duty cycle describes the maximum number of pages a device can output on a monthly basis. This specification is a guideline intended to offer a comparison of durability as it relates to the entire Konica Minolta MFP and printer product line so that the appropriate device can be placed in order to meet customer needs.

[2] Warm-up time may vary depending on the operating environment and usage.

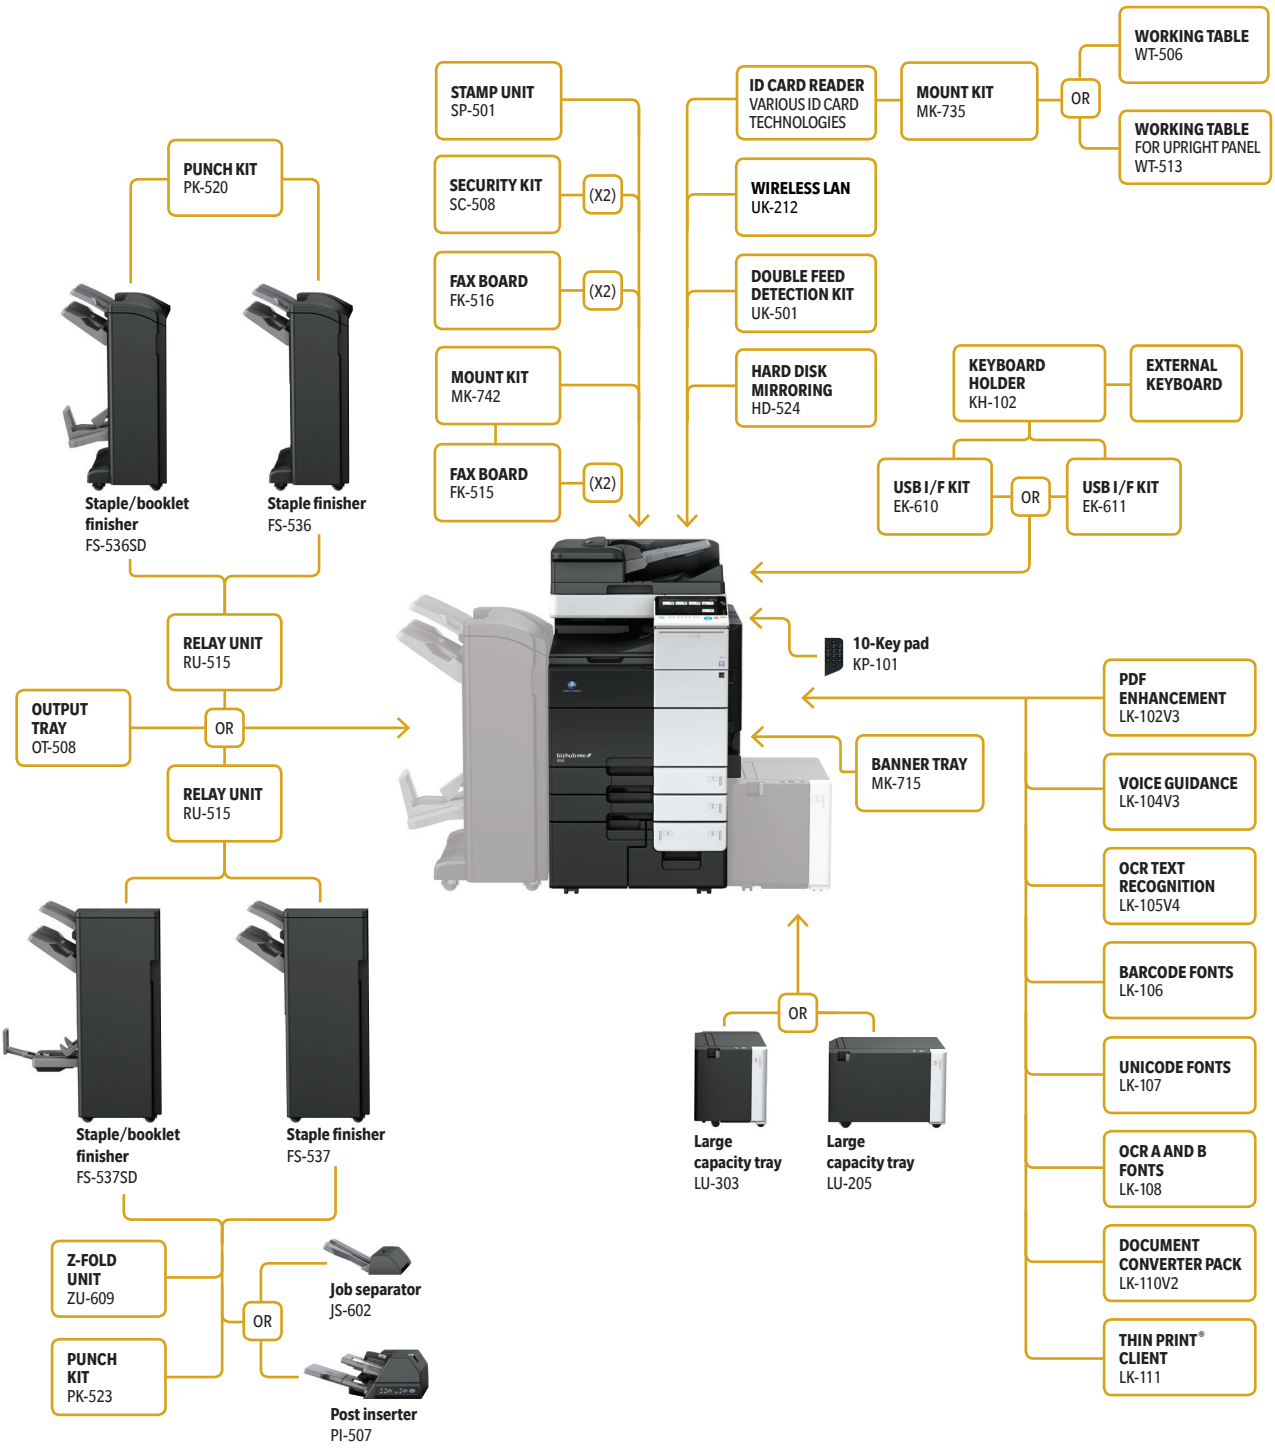
WORKS THE WAY YOUR BUSINESS DOES.

The bizhub 958 series is all about flexibility. It's adaptable, offering more power in less space, simple control and plug-and-play integration. The host of flexible options allows you to build the MFP solution that suits your specific needs.



INNOVATION THAT PUTS OUR PLANET FIRST.

Protecting the planet has always been a top priority at Konica Minolta. Our broad array of environmental initiatives will help you realize your own sustainability goals:

CLEAN PLANET

Our program provides cost-free recycling for all our consumables, including toner cartridges and bottles, imaging units, developer and drums with prepaid shipping labels and cost-free packaging. We can even arrange pick-up from high-volume users.

SUSTAINABILITY

Our exclusive Simitri HD toner formulation uses plant-based biomass material to reduce environmental impact. The latest bizhub models are EPEAT-Gold Certified and achieve among the lower power consumption rate of MFPs in their class. Energy saving modes reduce power consumption while maintaining fast first-copy output — and a unique Eco-indicator helps you monitor paper, toner and energy usage.

ECOVISION 2050

We're committed to a mid-century goal of reducing CO_2 emissions by 88% over 2005 levels, minimizing greenhouse gases that may contribute to global warming. We pursue that goal every day — minimizing energy consumption, cutting pollution and using recycled materials in construction.
